

Mastic tape

Watertight sealing of taped resin injection joints & cast resin joints
Electrical insulating and moisture sealing applications
Watertight gasket in glass and steel constructions

Features

- Both the cloth carrier and the butyl rubber have excellent resistance to water
- Excellent weather & moisture resistance properties, mastic tape can be applied outdoors
- conformable for applications over irregular shaped objects
- Excellent adhesion to most common materials
- UV-resistant, no degradation of polycarbonate and silicone

Specifications

Film type	Synthetic fibre
Material 2-sided	Self fusing butyl rubber
Total thickness	1.0mm
Tensile strength (100mm/min)	> 40 N/cm
