

Aluminium foil

For sealing joints with insulation materials
Applies a damp proof layer
Provide protection of cable insulation during the application of heat shrink products

Features

- Aluminium foil with a thickness of 30 μ m
- Special "cold weather" acrylic polymer as an adhesive
- Excellent adhesion, even under damp conditions

Specifications

Material	soft annealed aluminum
Total thickness	0.058mm
Adhesive type	Acrylic polymer
Direct Adhesion	11 N/25mm
Adhesion	22 N/25mm
Application temperature	from -15°C
Temperature range	-40°C till +120°C
Tensile strength	59 N/25mm
Elongation at break	5%
Vapor density	0.01 g/m ² .24 hours (ASTM D 96)
Reaction to fire	NEN 6065 class 1
