

Nitto tape 225

Nitto tape 225 is a high grade flame retardant electrical insulating tape.

Features

- Suitable for electrical insulation applications at high voltages
- Certified in accordance with EN 60454 for electrical insulation applications
- Excellent flame retardant properties
- Suitable for outside use
- Wide temperature resistance range -18 °C / +105 °C
- Excellent sealing properties against water & chemicals

Specifications

Film type	(soft) PVC
Thickness	0.19mm
Adhesive type	synthetic rubber based
Adhesion to 2B steel	2.50 N/10mm
Adhesion to backing	2.10 N/10mm
Tensile strength at break	190 N/10mm ²
Elongation at break	235%
Electrical strength	9.7 kV (51 kV/mm)
Corrosion related properties	1014 Ohm/25mm
Min. application temperature	- 18°C
Max. operating temperature	+ 105°C
Flame resistance	self extinguishing

Nitto tape 225
